

# Student Performance Data

This PDF is designed specifically for testing table extraction with Tabula using **stream=True**. The table has visible rows and columns but does not rely on ruled cell borders, making it suitable for stream-based extraction.

| Student ID | Name        | Department | Python | ML | DSA | CGPA |
|------------|-------------|------------|--------|----|-----|------|
| STU001     | Aarav Shah  | AIML       | 88     | 91 | 85  | 8.82 |
| STU002     | Riya Patel  | CSE        | 92     | 87 | 90  | 9.05 |
| STU003     | Dev Mehta   | AIML       | 85     | 94 | 88  | 8.91 |
| STU004     | Anaya Joshi | IT         | 90     | 89 | 92  | 9.12 |
| STU005     | Karan Desai | CSE        | 78     | 84 | 81  | 8.36 |
| STU006     | Mira Shah   | AIML       | 95     | 93 | 96  | 9.48 |
| STU007     | Arjun Patel | IT         | 87     | 80 | 86  | 8.57 |
| STU008     | Neha Shah   | CSE        | 91     | 90 | 89  | 9.10 |
| STU009     | Vivek Joshi | AIML       | 83     | 88 | 84  | 8.61 |
| STU010     | Isha Mehta  | IT         | 94     | 92 | 91  | 9.31 |

**Suggested Tabula test:** Use stream mode because the table is primarily defined by the positioning of text rather than a grid of cell borders.
